## Bird Takes Only 2 Precincts In Lemon Grove-Spring Valley

SAN DIEGO (CNA) — Supervisor David W. Bird won only two precincts in this area last week, one in Spring Valley and one in Lemon Grove. Despite the closeness of the race, (unofficially 367 votes apart), it surprised many local residents that the incumbent was able to get no more than two precincts in his win column. In the 41 precincts in Spring Valley and Lemon Grove the totals were: Henry Boney, 8,954; Bird, 6,771. The district total, which is unofficial, was Boney, 55,766 and Bird, 55,399. Bird has announced that he will petition for a recount of votes.

In the race for the Assembly, 77th District, Lemon Grove's John Dail took only one precinct in Lemon Grove and Spring Valley from incumbent Richard Donovan. It was Dail's first political campaign.

## State To Hear Unification Recommendations Friday

The Lemon Grove school board Monday night passed a resolution to ask the State Board of Education, meeting Friday at 1:30 p.m. at the State Building in San Diego, to merge the Lemon Grove Elementary school district with the La Mesa-Spring Valley District. School districts within the Grossmont High School district are required to make a choice that would change the present status as part of the state unification program.

Norman Wollitz, a San Diego school administrator and resi-

dent of Lemon Grove will present the Lemon Grove district's point of view at the Friday meeting.

Most elementary districts within Grossmont high school district will ask for a four-district system, it is believed.

If the two recommendations cannot be reconciled at the Friday meeting, the County school board will be asked to restudy the problem, make a recommendation, and plan to call the recommendation to an election sometime after Jan. 1.

Robert Sjogren, president of the Lemon Grove school board, said he plans to be in attendance at the Friday meeting. He said that interested citizens should also attend so that the citizens' point of view could be heard and considered by the State board.

## Doctor Saves Severed Lip Of S.V. Girl

Cheri Carrigan, four-year-old daughter of Mr. and Mrs. Robert Carrigan of 8937 Frederick st., Spring Valley, is resting easily in El Cajon Hospital after undergoing surgery for a severed lip, bitten off by a dog and found in the animal's stomach.

The accident occurred Sunday, Nov. 8, while Cheri was playing in the back yard of a friend's home in El Cajon. The dog was chewing on a bone and Cheri was sitting directly behind the animal. Cheri suddenly touched the dog's tail and the animal turned around and bit Cheri's lip. The girl was taken to El Cajon Hospital and search got underway to recover the severed lip. The search was unsuccessful until one of the doctors had a hunch that the lower lip may be in the stomach of the dog. The dog's owner consented to have the animal shot and a doctor found the lip intact in the dog's stomach. The dog apparently had swallowed the lip whole.

A San Diego plastic surgeon and an El Cajon doctor sewed the lip back on the girl after operating on the animal. The doctor said this was the first time he had retrieved tissue from an animal's stomach and replaced it on a human being. The operation may be the means of the girl not being disfigured, it was reported. On Tuesday this paper learned that it will be a few days before a full report will be available on the girl's condition.

## Street Lights To Be Lit In San Altos Fri.

Street lights will go on in the San Altos area of Lemon Grove Friday. The exact time is not known because the switch will be thrown by a photo-electric device, actuated by the falling darkness.

The lights represent many months of work by San Altos residents who have petitioned property owners to permit using their property as a taxing base so that street lights could be installed. The project was instituted under the sponsorship of the Lemon Grove Chamber of Commerce. The lighting district was formed by the County Board of Supervisors recently after the petitions were checked.

Among those who circulated petitions include the following: Tom Britt, Milton Costello, Jack Cummings, Mary Cummings, Joe Garrett, Nellie Hunter, Dr. James Kenaga, Warren Lukoski, Leola Spooner and others.

Gas and electric company officials said the lights will cost the average homeowner about \$.03 a night. 86 lights of 7,000 lumen will cost the district \$4.40 a light a month. Three multi-thousand lumen lights at major intersections will cost about \$3 a light a month.

Jack Cummings, a spokesman for the group, said that other areas can annex to the district without being contiguous. Such areas wishing to annex should contact the Lemon Grove Chamber of Commerce.

## The DIMMER VIEW

by MAX GOODWIN

### A Stamp at Every Corner — and a Chicken In Every Pot

Some of our readers have gotten excited about a gratuitous service the federal government wants to supply.

The service amounts to making postage stamps more readily available for the poor soul who has a letter of importance (to him if no one else) which he wants to mail.

The Post Office Department has come up with what it considers the answer to this prickly problem. "Why not have a stamp vending machine attached to every mail box?"

Well, at first blush, this seems to be a solution of a sort. The letter goes into the mail box so why not have a postage vending machine on each box? The idea of postal patrons marching through the hail, sleet and snow to get to the village post office to buy a stamp will be a thing of the past, according to the sponsors of the idea.

A second look at this "service" makes us wonder whether or not the vending machine manufacturers might not be the sponsors.

A weather-proof vending machine couldn't be built for less than \$100. I suppose there are a million or more mail boxes in the nation. A \$100 million dollar gift to Cambodia might not be much but a \$100 million contract to some American manufacturer would put him in clover for the rest of his life.

Then there would be repair and pilferage. We would need a crew of people to keep these things operating. That would add 20 or 30 thousand people to the Post Office payroll. If these employees drove repair cars, these cars would have to be purchased, or leased. Here's some business for enterprising auto dealers who would not be deserving of their agency if they didn't try to sell their make of car into the project.

Then there's the pilferage problem. If only one machine out of 100 were burglarized the combined damage and stamp and money loss would run into the millions.

Now who would pay this bill?

There are two ways to pay for this service. One, by adding to the continuing postal deficit. This should not be seriously

## GOD'S MINUTE

REV. H. C. BAKKEN

### "TODAY"

Before going out to meet the day, a person needs to get himself in tune mentally and spiritually. This we can do by taking time to read the Bible. Through the Bible, God speaks to us. He will show us our sins and direct us to Christ who forgives sin. The Word will assure us that God will be with us all day, if we let Him.

The Lemon Grove Christian Church will hold its last church picnic of the year on Sunday. Following the 11 o'clock worship service the members, friends and guests of the congregation will travel to Featherstone Christian Camp which is situated in the Cleveland National Forest, a short distance from Lakeside. Their church picnic will be an old fashioned pot-luck dinner under the biggest shady oak trees on the ranch.

A few years ago the independent Christian Churches of San Diego purchased this 160 acre valley. The camp is now under a \$65,000 development program to provide the necessary facilities for camping and recreation, including an Olympic swimming pool.

considered because the last several Postmasters General have been trying to reduce this deficit.  
They other way is to tack the cost onto each of the stamps you buy. Our guess is that it'll add a penny to the average letter.

A penny's not much for the convenience of getting a stamp when you have none but let's face it — the penny will be on every letter mailed in the future, whether you need the convenience of a vending machine or not.

Then, there's always that possibility that you'll hit a "convenience" snag. You may walk several blocks to the mailbox through the hail, sleet or snow and find the dispenser is empty or inoperative.

But don't say we didn't tell you it could happen!

## Now is the Time for Moderation

Americans will drink a record amount of liquor this year according to a study made by the Economic Research Department of Bank of America.

Its findings show that adult Americans will consume 295,000,000 gallons of booze — at least 5% more than was drunk last year.

Each and every adult American is obligated to drink 2.32 gallons this year, if he wants to help keep the record reachable.

Double-fisted drinking though this may be, observers and worriers see substantial increases for the late 1960's when children born just after World War II become old enough to drink.

Additionally, the 20-49 year age group, which drinks the heaviest, will increase in number from 69.2 million to 84.4 million by 1975 according to the U.S. Census Bureau.

Urban living, home entertaining, increased leisure and traveling can be expected also to sustain sales of liquor at higher levels during the years before the "war babies" reach drinking ages, according to the study.

Gin and vodka are growing in popularity, particularly among the lady drinkers. Brandy popularity is sky-rocketing, with a heady 54% increase the first six months of 1964 against the same period last year.

We don't know how the added consumption will affect the consumption percentages, but we will drink a toast to moderation — and hope you do the same.

223 telephone employees serving the La Mesa, Lemon Grove and Spring Valley areas donated over \$24.00 each to A.I.D. for the above total.

A.I.D. stands for Associated In-Group Donors, which is an Association of givers established to provide an efficient channel through which charitable contributions may be distributed.

A.I.D. works side-by-side with United Funds in fund raising activity and this effort is one of a dozen worthy welfare causes to which A.I.D. funds are allocated. We in Pacific Telephone are proud of this Association.

Olympic Games always provide a world of thrills—the great sportsmanship, the new records, the friendly goodwill among nations.

And with each Olympiad come marvelous changes that win no medals but add enjoyment to these events. This year, for example, Americans could watch the impressive opening ceremonies live and direct from Tokyo via a communications satellite. And, Americans in Japan sharing Olympic thrills with folks back home enjoyed telephone conversations as clear as crosstown calls—thanks to the recent opening of the first telephone cable between America and Asia.

November 4, 1924 marked the first radio broadcast of presidential election returns. (Telephone lines helped make it possible just as they do today.) How's your history? Coolidge defeated John W. Davis.

A telephone customer just solved a mystery. You see, she frequently came home to find her telephone off the hook. It turned out to be the work of her pet dog. Seems that whenever the phone rang, Fido would do the customary thing; he'd answer it. He'd just jump up on the table, push the handset off, and bark into it until he heard a voice from the other end. So the customer ordered a Bell Chime ringer through her telephone business office in the hope that her dog will be fooled when a melodic chime takes the place of the familiar telephone ring. Doggone good idea!

## Business Decline Seen As Continuing Trend

Business activity in Southern California showed a marked decline during October, continuing the trend established during August and September. However, October's drop resulted from strikes in two major industries - food distribution and automobiles, Harold E. Holsonbeck, manager of Security First National Bank's College Branch, reported this week.

Employment during September, the latest month for which statistics are available, reported 90,000 more civilian job holders than in the same months a year earlier. The gain took place almost entirely in the nonmanufacturing sector, while the number of manufacturing jobs remained virtually unchanged, Holsonbeck concluded.

# Letters To The Editor

Dear Editor:

My warmest personal thanks for the fair manner of your editorial endorsement of my reelection and handling news releases from my office. I am certain that your endorsement was in large measure responsible for the plurality given me by the voters of this District.

I want to assure you that I will do everything within my ability to continue to represent the 77th Assembly District effectively, and fairly during the forthcoming two years. Your sage advice will always be welcome in matters affecting the area with which you are most familiar.

Assemblyman, Richard J. Donovan  
77th Assembly District

Dear Editor:

Now that the elections are all over we can all settle down to normal living once again. We should get to work on some of our local problems and make the community of Lemon Grove a better place in which to live.

The nearest ambulance service is located in La Mesa about three miles away. When you need an ambulance it is most always an emergency.

Why can't we have our own ambulance, operated by the fire department in the limits of the district?

The Spring Valley Fire Department operates and renders excellent service to the people of that district with one ambulance which serves about nine square miles for a budget less than \$18,000 dollars a year.

The Lemon Grove district is much smaller and it would be cheaper to operate it because the runs would be shorter. Less gas, oil, and less tire wear and maintenance would help keep the cost down. So let's hear from some of you other residents and give your thoughts on the subject. Maybe we can come up with something good.

William "Bill" Doughman  
Lemon Grove  
8454 Palm st.

Dear Editor:

As chairman of the San Diego County Democratic Central Committee and a co-chairman of the San Diego County Johnson - Humphrey Campaign, I would like to express my appreciation of the objective coverage by you and your staff of Democratic campaigns in the recent election.

As you know, objective coverage by all news media is essential to the existence and survival of the two-party system. Your organization covered the campaigns with an impartial attitude of equal treatment for both parties. This was indeed a public service in keeping with the highest standards of your profession. I offer you and your staff my congratulations on a first-rate performance.

Sincerely yours,  
Paul A. Peterson

Dear Editor:

With the passage of the 1964 general election and the overwhelming approval of Proposition 15 (Free TV) both in San Diego County (3 to 1) and in the State as a whole (2 to 1) I wish to express to the press of San Diego County as well as its radio and TV stations, my appreciation for the impartial treatment which you afforded both sides of this campaign.

Naturally, I am pleased that the cause of Free TV was supported. At the same time, I am well aware of differing viewpoints arrived at from conviction and I feel that the press, using the broad generic terms has throughout the long months prior adhered to the highest type of public reporting and has in many instances, expressed its own convictions in the public interest.

I feel San Diego is fortunate to be served by press of such high ethical standards and offer you my congratulations.

Sincerely,  
George A. Scott

Dear Editor:

I was reading in your paper of the establishment of aid for needy families for the holidays.

I have a friend in Spring Valley whose only income for the next six months is \$128. Her daughter is mentally retarded, and a couple of weeks ago had heart surgery. The money she gets barely pays her house payment and utilities. Anyone helping her with a basket would be appreciated. She lost her husband a little over a year ago. Would you please give this to the proper people?

Their leader says they really enjoyed listening.

Five of the girls were color guards in the National City Parade for Navy Week, and in the Spring Valley American Heritage parade too.

Being a mounted troop they enjoyed a fun party with Boy Scout troop 395 from Lakeside. The well-attended and chaperoned party was a huge success so the girls are planning a Christmas Party. Fun!

Lemon Grove's watch for the Girl Scout Calendars which are now on sale and which the girl scouts will be asking you to buy. Buy one naturally.

This active troop is planning a Thanksgiving week-end trail ride, and has two more in the formative stages for December and January.

Since this is the first and only mounted Girl Scout troop in the San Diego Council, Mrs. Paterbaugh invites any interested girl to call her or to contact Meagin Law, parade chairman, Sue Perkins, scribe, Cheryl Carlson, treasurer or Mrs. Lorene Perkins and Carl Mohr Sr. troop advisors. Here is your chance girls if you're interested in horses and riding them.
